With PDFill, create PDF Form for the international languages

Tips to use the UNICODE function:

1. PDFill Options, select your language coding and then your desired font. You may play with several fonts to see if it works. Arial Unicode MS Font is Preferred for Unicode.
2. To have your font, please make sure that you can view your language in IE browser. Please install your language if you can not find your language coding.
3. Download the Asian and Central European font packs for your Adobe Reader:
